TONEY DECLARED ELECTED.

GOVERNOR BROWN WILL NOW BE GALLED UPON TO APPOINT THE JUDGE'B SUCCESSOR.

A special from Frankfort says that, in spite of the fact that Judga Sterling B. Toney had virtually acknowledged that he was never elected by withdrawing from the contest and renouncing all title by reason of his alleged 35 majority votes on the face of the returns, and in spite of the further fact that the two chief Democratic officials of the state, Governor John Young Brown and Auditor Luke C. Norman, have taken impregnable position in favor of the essenting of Judge Boyle the Republican contestant, the State Contest Board voted to affirm the election of Toney, the effect of which will be to create a vacancy on the Bench.

SENATOR SHERMAN made in the Sen ate Monday a speech which commanded the attention of that body during its delivery, and which was one of the best that the senior Ohio Senator has ever made. It followed Senator Gray's de-fense of the Administration for the bond issue, in which the Delaware Senator said the gold could not have lasted another day. Coming from a man of Senator SHERMAN'S conservatism in ras exceedingly important. His purould pay its obligations in the money which it secured at the time the obliga tions were incurred, and was an appea against repudiation. He took occasion in his speech to urge that the President had nothing whatever to do with the finances, but that power devolved exclusively on the Secretary of the Treasury and it was a plea for that officer's independence. Perhaps the most striindependence. Perhaps the most stri-king part of his speech was his conser-vative criticism of the late bond issue and the use of the word "improvident" as regards the Administration's conduct ith the foreign symilicate and the rephecy that the bonds sold at 1041 could in sixty days be bringing 120 in the London market.
